## PROFESSIONAL EXPERIENCE

---

### Inside Real Estate

*Site Reliability Engineer*

February 2020 - April 2022

*Draper, UT*

- Administered over and managed cloud infrastructure for the entire organization.
- Worked with developers across the stack to enable collection of observability data across many services.
- Wrote pipelines to manage complex builds and high availability deployments.
- Modernized legacy systems with improved philosophies and tooling.
- Architected and administered over multiple Kubernetes clusters.
- Lead development on a service platform on Kubernetes where developers could take advantage of a substantial amount of automatic instrumentation.
- Owned the service architecture of a wide variety of PHP, Go, & NodeJS applications.
- Lead development on an internal platform to manage and autoscale highly available Wordpress sites.
- Participated in on-call rotation to ensure production issues were quickly addressed 24x7.
- Diagnosed production issues, routed problems to relevant persons, and aided them in creating solutions.

### Sovrin Foundation

*DevOps Engineer*

April 2018 - February 2020

*Provo, UT*

- Architected and managed all cloud infrastructure.
- Developed and maintained multi-platform software pipelines for open source projects.
- Provisioned and managed Linux, Windows, and MacOS servers using SaltStack.
- Lead the transition of the software delivery pipeline of Hyperledger IndySDK from Evernym Inc. to the Sovrin Foundation.
- Participated in the open source community and worked in open collaboration with developers from around the world.
- Lead the graduation of Hyperledger Indy to an official Linux Foundation project.
- Aided developers in debugging their projects and supported their development workflows.
- Was on-call

### Brigham Young University

*Quality Assurance Engineer*

April 2017 - April 2018

*Provo, UT*

- Thoroughly tested department websites, both programmatically and manually.
- Lead the video documentation team.
- Helped conduct job interviews and trained several new hires.
